Minutes of Local Community and Development Committee Meeting held Monday 16th June, 2025 at 10.00 a.m. via zoom and in person in the Horse & Jockey

Present:

Public Sector:

Cllr. John Carroll, Chair (TCC), Anthony Fitzgerald (TCC),

Stephanie O'Callaghan (CYPSC), Katie Frazer (Teagasc)

Private Sector:

Michael Murray (NTDC), Elaine Baker (PPN), Isabel Cambie (STDC), John O Shaughnessy (Business Pillar), Mike Geary (TUS), Mike Edwards, Vice Chair (PPN), Meadhbh Gordon

(PPN)

Apologies:

Cllr. Marie Murphy (TCC), Pat Carroll (Agricultural Pillar), Sinead

Carr (Chief Executive) (TCC), Derval Howley (HSE), Colin

Cummins (TETB), Cllr. Annemarie Ryan (Shiner)(TCC), Derry O

Donnell (PPN)

In Attendance:

Brian Beck (Director of Services) (TCC), Sheevaun Thompson (TCC), Cora Morrissey (TCC), Mairead Ryan (TCC), Mary McLoughney (TCC), Eoin Kaar (TCC), Elaine O Driscoll (TCC), Valerie Kavanagh (TCC), Catriona Crowe (TCC), Fiona Crotty

(TCC)

Pre-Meeting Requirements and Conflict of Interest

(a) Quorum

The Quorum was reached.

(b) Conflict of Interest

Isabel Cambie declared a conflict of interest in the Tipperary Town Revitalisation/Tipperary Tidy Towns 2025 LEADER project. Mike Geary declared a conflict of interest in the Ballyporeen Community Council 2025 LEADER project.

(c) Decision-Making Requirements to include LEADER Written
Decisions

None

(d) Ethics Documents

All Ethics documents have been returned

Approval of Draft Agenda

The Draft Agenda was agreed

Confirmation of Minutes of Tipperary LCDC Meeting dated the 19th May, 2025 & Matters Arising (Decision)

The minutes of the Tipperary LCDC meeting held on the 19th May, 2025 LCDC Meeting were agreed on the proposal of Mike Edwards and seconded by Katie Frazer

LEADER 2023-2027

3.1 NTDC CEO Report (Decision)

There were no projects to present to this month's LCDC. Michael Murray updated the members on the CEO Report. Approval of the CEO Report Update was proposed by Mike Edwards and seconded by Stephanie O Callaghan

3.2 STDC Projects & CEO Report (Decision)

Isabel Cambie outlined the details of the following STDC projects to the members:

Cahir Development Association CLG/Cahir Tidy Towns

| Project Code: | IE30STP102315 |
|---|---|
| Project Promoter Code: | 4. 3 |
| Promoters Name: | Cahir Development Association CLG/ Cahir Tidy Towns |
| Description: | The promoter is seeking funding to restore a bridge and wall adjoining Lady Walpoles Canal at the Inch Field in Cahir and near the walk to the Swiss Cottage. The works would include repointing, de-vegetation and resolving any signs of erosion. The bridge is important for the local fauna as well to ensure the canal and Inch Field continues to perform its purpose as a natural flood defence. |
| Theme: | Sustainable Development and Climate Change adaptation and Mitigation. |
| Sub Theme: | Enhancing Co.Tipperary's Environment |
| Outline the LAG's consideration on each of the following: | |
| Deadweight | Considered and not identified |
| Displacement: | Considered and not identified |
| Innovation | This project is innovative in that it involves many stakeholders in a collaborative and |

| | | integrated approach to prevent further erosion and mitigate flood risk. The project will also enhance the Inch Field / Swiss Cottage Walk / Cahir Castle amenity area, opening up a new piece of heritage in the bridge and completing the works commenced a number of years ago. It is adjacent to the landmark statue of Fionn McCumhaill and St Declans Way. | = |
|------|------------------------------------|---|-----|

Tipperary Town Revitalisation CLG

| Project Code: | IE30STP102371 |
|---|--|
| Project Promoter Code: | * |
| Promoters Name: | Tipperary Town Revitalisation CLG |
| Description: | The project entails the development of a new Wildflower Shrubbery at Tipperary Hills which is a much-loved local amenity. The project is being promoted in collaboration with Tipperary Tidy Towns and includes the development of a new 2,400 square metre wildflower meadow at Tipperary Hills - a public park adjacent to Tipperary Town. The project will involve low impact planting of pollinator friendly shrubs and trees to create a year-round wildlife habitat. |
| Theme: | Sustainable Development and Climate Change adaptation and Mitigation. |
| Sub Theme: | Enhancing Co.Tipperary's Environment |
| Outline the LAG's consideration on each of the following: | |
| Deadweight | Considered and not identified |
| • Displacement: | Considered and not identified |
| Innovation | This project is innovative in that it involves collaboration between stakeholders to develop a new Wildflower Shrubbery at Tipperary Hills. The project while modest in scale will offer many benefits in terms of |

| 4 | 2 EN | education, biodiversity and climate change mitigation. The project will also enhance a very well used local amenity and provide another point of interest in an already unique visitor amenity |
|------|--|--|
| - | Reasonableness of costs: | The promoter sought 3 quotations and received one quotation. This met the selection criteria, and the amount involved was considered reasonable based on other |
| e . | In house projects: are there other providers that can deliver the project more cost | not an in-house project |

Isabel Cambie declared a conflict of interest in this project and removed herself from the decision-making process.

Cashel Tidy Towns

| Project Code: | IE30STP102319 |
|---|--|
| Project Promoter Code: | 2 |
| Promoters Name: | Cashel Tidy Towns |
| Description: | The promoter is seeking funding to enlist the expertise of an ecologist to create a biodiversity action plan, the intent of which is to provide direction and strategic guidance to the Tidy Towns and other interested parties on safeguarding and enhancing biodiversity in the Cashel Area. |
| Theme: | Sustainable Development and Climate Change adaptation and Mitigation. |
| Sub Theme: | Enhancing Co.Tipperary's Environment |
| Outline the LAG's consideration on each of the following: | 10 2 E p |
| Deadweight | Considered and not identified |
| Displacement: | Considered and not identified |
| • Innovation | This project is innovative in that the proposed Plan will provide a roadmap to continue the work of Cashel Tidy Towns on their Natural Environment and Sustainability Activities, and also help them towards a Silver Medal. More importantly, it will lay a strong foundation for and provide education about biodiversity enhancement in this iconic town. |
| Reasonableness of costs: | Yes. The promoter sought and received three quotations for the Biodiversity Plan. They were scored for price, contractor track record and compliance with project specifications. The contractor with the highest score was awarded the contract. They also had the cheapest price. |
| In house projects: are there other providers that can deliver the | N/A – not an in-house project |

| project more cost effectively? | |
|--|--|
| Recommendation of Evaluation Committee | €4,538.70 |
| Rationale of Evaluation Committee if recommendation is rejected: | N/A |
| Where rejecting an Evaluation Committee recommendation to reject a proposal, insert the revised score | N/A |
| Rationale for grant aid, having regard to the LDS: | The project is compatible with the LDS and the environment theme, specifically re Biodiversity. They have not previously received LEADER funding |
| Added Value- How will the added value of the LEADER funding be demonstrated in the delivery of this project? | This project could not take place without LEADER Funding. This is a bottom-up project where a community organisation has identified a need for an expert help to support their biodiversity activities. It also involves a partnership approach between Tidy Towns and other stakeholders in the area. |
| % level of aid & ceiling: | 90% of eligible costs - i.e. max grant of €4,538.70 based on eligible costs of €5,043.00 as per assessment report |

Dualla Community Association CLG

| Project Code: | IE30STP102322 |
|---|---|
| Project Promoter Code: | (II) |
| Promoters Name: | Dualla Community Association CLG |
| Description: | The project proposed will involve the installation of 20 Solar Panels (circa. 72 cell/power output of 440W) on each building, Mounting Kit, Inverter (5kV), Battery Management System (BMS) and batteries on both the roof of Dualla Community Centre and the roof of the Denis Leamy Centre at Dualla Community Field. The installation will significantly reduce reliance on grid electricity, cutting costs and lowering carbon emissions. |
| Theme: | Sustainable Development and Climate Change adaptation and Mitigation. |
| Sub Theme: | Enhancing Co.Tipperary's Environment |
| Outline the LAG's consideration on each of the following: | e e e e e e e e e e e e e e e e e e e |
| Deadweight | Considered and not identified |
| Dîsplacement: | Considered and not identified |

| | Reasonableness of costs: | This project represents a pioneering step in sustainable energy for this local community, as it will be the first of its kind in the area, making the Dualla Community Centre and the Denis Leamy Centre a flagship example of renewable energy adoption. The financial savings from reduced energy costs will also allow for increased investment in local community events and initiatives, further benefiting residents of our community. By taking this innovative step, Dualla Community Association is not only future-proofing its facilities but also fostering a culture of sustainability and leadership in renewable energy adoption. This project will serve as a visible and practical example of how communities can embrace green technology to build a more sustainable future. Yes. The promoter sought 3 quotations for the work and received three. They assessed them on the basis of cost, sustainability and previous experience. The chosen supplier scored the highest and was also the | |

Elaine Baker thought this was a fantastic project and asked what kind of heat source they had? She recommended that all heat options be looked at in order to get the best value from the solar panels.

The project was provisionally approved subject to obtaining planning permission / section 5 exempted development certificate.

Millenium Family Resourse Centre CLG

| Project Code: | IE30STP102370 |
|------------------------|---|
| Project Promoter Code: | P 1 |
| Promoters Name: | Millenium Family Resource Centre Clg |
| Description: | Millennium FRC (MFRC) is a family resource centre situated in Glengoole in the disadvantaged Slieveardagh area of Tipperary. MFRC proposes to install solar panels on the rear roof structure of their building in Glengoole as recommended by an |

| | × |
|---|--|
| | energy audit completed in 2024 which highlighted an annual usage of 28,021 KWh of energy at a cost then of €8,429.00 p.a. The report goes on to state that with the installation of photovoltaic solar panels 63% of their electricity needs would be provided with an energy saving of 17,806 KWh or €5,341.00 annually. This is a significant saving financially but also very importantly the report highlights that the installation of solar panels will reduce the current electricity emissions from 9.09 (tCO2e) bý 5.78 (tCO2e) to 3.31 (tCO2e) which is approximately two thirds emissions reduction. |
| Theme: | Sustainable Development and Climate |
| | Change adaptation and Mitigation. |
| Sub Theme: | Enhancing Co.Tipperary's Environment |
| Outline the LAG's | |
| consideration on each | a de la companya de l |
| of the following: | |
| Deadweight | Considered and not identified |
| Displacement: | Considered and not identified |
| Innovation | This renewable energy installation is |
| Doggan blongs | estimated to reduce the CO2 emissions from electricity usage by 5.78 t CO2 per year (64%). In addition, the position of MFRC as a leading community organisation gives it the opportunity to encourage service users and other community organisations to take up renewable energy. MFRC are committed to following up on other aspects of the energy audit as opportunities arise. |
| Reasonableness of costs: | Yes. The promoter sought quotations from 5 suppliers for the works. They were assessed against criteria such as the track record of the company, the quality of the proposed works, the value for money and the aftersales service, and the selected supplier was the one who scored highest |
| In house projects: are there other providers that can deliver the project more cost | N/A |

| Recommendation of Evaluation Committee | €22,983.75: Provisional approval of grant aid, subject to Planning Permission/Section V exemption being received. |
|---|---|
| Rationale of Evaluation Committee if recommendation is rejected: | N/A |
| Where rejecting an Evaluation Committee recommendation to reject a proposal, insert the revised score | N/A |
| Rationale for grant aid, having regard to the LDS: | The project involves installation of solar panels on a family resource centre which focusses on delivering essential services in a disadvantaged rural area. Project is compatible with the LEADER Operating Rules and the LDS Environment theme which supports community renewable energy. It also supports social inclusion and accessible services objectives. |
| Added Value- How will the added value of the LEADER funding be demonstrated in the delivery of this project | This project could not take place without LEADER Funding and it offers a bottom up approach to identifying and meeting the needs of a Family Resource Centre offering essential social services in a remote rural area. It will lead to improved value and social capital, as it will improve efficiency in the centre. |
| % level of aid & ceiling: | 75% of eligible costs - i.e. max grant of €22,983.75 based on eligible costs of €30,645.00 as per assessment report. Provisional approval of grant aid, subject to Planning Permission/Section V exemption being received. |

The project was provisionally approved subject to obtaining planning permission / section 5 exempted development certificate.

Rosegreen Development Association CLG

| Project Code: | IE30STP102369 |
|---|--|
| Project Promoter Code: | N 2- |
| Promoters Name: | Rosegreen Development Assocation CLG |
| Description: | • Installation of solar solution system on the roof of the Community Centre including panels, inverter and battery storage for the Community Centre to reduce the cost of electricity and reduce thei carbon footprint. This includes the supply and installation of 50 solar panels, 20kW invertor and 48kWh batteries. • Installation of a rainwater harvesting solution system at the Community Centre including a 10,000L water storage tank, a filtering system that could be used by the multiple organisations that utilise their Community Centre including the Tidy Towns team who use water to keep plants/shrubs hydrated during dry spells |
| Theme: | Sustainable Development and Climate Change adaptation and Mitigation. |
| Sub Theme: | Enhancing Co.Tipperary's Environment |
| Outline the LAG's consideration on each of the following: | 2 <u>2</u> 22* |
| Deadweight | Considered and not identified |
| Displacement: | Considered and not identified |
| • Innovation | The proposed installation of both PV panels and rainwater harvesting is particularly innovative and will serve as a demonstration to other community groups encouraging all users to take similar initiatives in their own homes and organisations. The rainwater harvesting is also innovative through utilizing a storage collection and filtering system to recycle the water from the roof of the Community Centre for multiple uses including toilets, showers, tidy town |
| Reasonableness of costs: | activities etc. Yes. The promoter sought and received 4 quotations for the Solar Energy element and |

| (a): | sought and received 3 quotations for the Rainwater Harvesting element and chose the cheapest for both items. Voluntary labour is also included for the ground works element of the project and demonstrates considerable value for money. |
|---|---|
| In house projects: are there other providers that can deliver the project more cost effectively? | N/A |

| Recommendation of Evaluation Committee | €35,326.87: Provisional approval of grant aid, subject to Planning Permission/Section V exemption being received. |
| Rationale of Evaluation Committee recommendation is rejected: | N/A |
| Where rejecting an Evaluation Committee recommendation to reject a proposal, insert the revised score | N/A |
| Rationale for grant aid, having regard to the LDS: | The project involves a suite of environment actions within a small rural village. It is compatible with the LEADER Operating Rules and the LDS Environment theme which supports community renewable energy, low waste and biodiversity initiatives. |
| Added value – How will the added value of LEADER funding be demonstrated in the delivery of this project? | This project could not take place without LEADER Funding. The project represents a bottom up, area based and innovative approach to identifying a suite of environmental actions which collectively can create a real difference and act as an education and capacity building focus for other communities and for people living in the area. |
| % level of aid & ceiling: | 75% of eligible costs - i.e. max grant of €35,326.87 based on eligible costs of €47,102.50 as per assessment report: Provisional approval of grant aid, subject to Planning Permission/Section V exemption being received. |
| Proposed by: | Katie Frazer |
