GUIDANCE NOTES

- (1) All queries on the form must be completed and the form must be accompanied by the relevant fee. The amount of the fee is currently **€80.00**.

- (2) This application should be accompanied by **TWO COPIES** of the following documentation
 - OSI Site Location Map with the site outlined clearly – 1:1000 in urban areas and 1:2500 in rural areas
 - Floor Plans & Elevations at a scale of not less than 1:200
 - Site layout plan indicating position of proposed development relative to premises and adjoining properties
 - Other details e.g. brochures, photographs if appropriate.

(All dimensions must be given in metric scale and drawings should be accompanied by a brief description outlining the use of the proposed development)

- (3) Where a proper and complete application is received, a decision must be conveyed to the applicant within four (4) weeks except where additional necessary information is required.

This application form and relevant fee should be submitted to:

Re: Application for a Section 5 Declaration – 40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Tipperary Technology Park CLG, Rosanna Road, Tipperary Town, Co. Tipperary, E34 P658.

A Chara,

I acknowledge receipt of your application for a Section 5 Declaration received on 26th March 2026 in connection with the above.

I wish to advise that you will be notified of a decision on your application in due course.

Yours sincerely,

For Director of Services.

TIPPERARY COUNTY COUNCIL

Application for Declaration under Section 5

Planning & Development Act 2000, as amended
Planning & Development Regulations 2001, as amended

Planning Reference:	S5/26/40
Applicant:	Tipperary Technology Park CLG
Development Address:	Rosanna Road, Tipperary Town, Co. Tipperary
Proposed Development:	40.5KW roof mounted solar PV system with battery electric storage system (BESS)

1. GENERAL

On 26th March 2026 a request was made for a declaration under Section 5 of the Planning and Development Act, 2000 as amended by Tipperary Technology Park CLG c/o Tipperary Energy Agency as to whether or not the following works constituted development and if so, whether same was exempted development:

40.5KW roof mounted solar PV system with battery electric storage system (BESS)

The application was accompanied by the following documentation;

- Section 5 Application Form
- Proposed Site Layout Plan
- Site Location Map
- Proposed Roof Plan/ Section

Figure 1 Site Location

2. STATUTORY PROVISIONS

The following statutory provisions are relevant to this case;

Planning and Development Act 2000, as amended

Section 2(1) of the Planning and Development Act, 2000, as amended, defines “works” as:

“works” includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected

structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 3 (1) of the Planning and Development Act 2000, as amended, states as follows:

“In this Act, ‘development’ means, except where the context otherwise requires, the carrying out of works on, in, over or under land or the making of any material change in the use of any structures or other land.”

‘solar energy equipment’ means equipment that converts energy from the sun into thermal or electrical energy, including solar thermal and solar photovoltaic equipment.

Section 4 of the Planning and Development Act, 2000, as amended states:

(2)(a) The Minister may by regulations provide for any class of development to be exempted development for the purposes of this Act where he or she is of the opinion that—

(i) by reason of the size, nature or limited effect on its surroundings, of development belonging to that class, the carrying out of such development would not offend against principles of proper planning and sustainable development, or

(ii) the development is authorised, or is required to be authorised, by or under any enactment (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation) where the enactment concerned requires there to be consultation (howsoever described) with members of the public in relation to the proposed development prior to the granting of the authorisation (howsoever described).

Section 4 (4) of the Planning and Development Act 2000, as amended, states as follows:

4(4) Notwithstanding paragraphs (a), (i), (ia) and (l) of subsection (1) and any regulations under subsection (2), development shall not be exempted development if an environmental impact assessment or an appropriate assessment of the development is required.

Planning and Development Regulations 2001, as amended

Article 5 of the Planning and Development Regulations 2001, as amended states:

Interpretation for this Part.

5.(1) In this Part—

“ancillary equipment” for the purpose of rooftop solar photo-voltaic or solar thermal collector panels in classes 56(d), 56(e), 60 or 61 of Part 1 of Schedule 2 and class 18(c) of Part 3 of Schedule 2 does not include any equipment which must be placed or erected on a wall, or a rooftop to allow a solar photo-voltaic or solar thermal collector installation to function;

“business premises” means—

- (a) any structure or other land (not being an excluded premises) which is normally used for the carrying on of any professional, commercial, or industrial undertaking or any structure (not being an excluded premises) which is normally used for the provision therein of services to persons,*
- (b) a hotel, hostel (other than a hostel where care is provided) or public house, or*
- (c) any structure or other land used for the purposes of, or in connection with, the functions of a State authority;*

“solar safeguarding zone” has the same meaning as in the Planning and Development (Solar Safeguarding Zone) Regulations 2022;

Article 6 of the Planning and Development Regulations 2001, as amended states:

Exempted Development.

6. (1) Subject to article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.

Class 56(e) of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended states:

Description of Development	Conditions and Limitations
<p>(e) The placing or erection on a roof of a business premises or light industrial building, or within the curtilage of a business premises or light industrial building, or on a roof of any ancillary buildings within the curtilage of a business premises or light industrial building of a solar photo-voltaic and/or solar thermal collector installation.</p>	<ol style="list-style-type: none"> 1. Where such development is located within a solar safeguarding zone, the total aperture area of any solar photo-voltaic and/or solar thermal collector panels, taken together with any other such panels previously placed on a roof, shall not exceed 300 square metres. 2. Where such development is located within a solar safeguarding zone, the planning authority for the area shall be notified in writing no later than 4 weeks after the commencement of such development and such notification shall include details regarding the location and scale of the development. 3. The distance between the plane of the roof and the solar photo-voltaic or solar thermal collector panels shall not exceed: <ol style="list-style-type: none"> a. for a business premises, 1.2 metres in the case of a flat roof or 15cm in any other case. b. for a light industrial building, 2 metres in the case of a flat roof or 50cm in any other case. 4. The solar photo-voltaic or solar thermal collector panels shall be a minimum of 2 metres in the case of a flat roof or 50cm in any other case from the edge of the roof on which it is mounted. 5. Development shall not be exempted development where the highest part of the solar photo-voltaic or solar thermal collector installation exceeds the highest part of any roof that is not a flat roof (excluding any chimney). 6. Any ancillary equipment associated with solar photo-voltaic or solar thermal collector panels shall not be placed or erected on a wall or any roof that is not a flat roof. 7. The height of any ancillary equipment associated with solar photo-voltaic or solar thermal collector panels on a flat roof shall not exceed 1.6 metres above roof level. 8. Any ancillary equipment associated with solar photo-voltaic or solar thermal collector panels on a flat roof shall be a minimum of 2 metres from the edge of the roof on which it is mounted. 9. Any free-standing solar photo-voltaic or solar thermal collector installation shall not be placed or erected forward of the front wall of the business premises or light industrial building. 10. The total aperture area of any free-standing solar photo-voltaic and solar thermal collector panels taken together with any other such existing free-standing panels shall not exceed 75 square metres. 11. The height of any free-standing solar photo-voltaic or solar thermal collector installation shall not exceed 2.5 metres at its highest point above ground level. 12. The placing or erection of a solar photo-voltaic or solar thermal collector installation on any wall shall not be exempted development.

	<p>13. <i>The placing or erection of any free-standing solar photo-voltaic or solar thermal collector installation within an Architectural Conservation Area shall only be exempted development if those works would not materially affect the character of the area.</i></p> <p>14. <i>No sign, advertisement or object not required for the functioning or safety of the solar photo-voltaic or solar thermal collector installation shall be attached to or exhibited on such installation.</i></p> <p>15. <i>Development under this Class shall only be exempted development where the solar photo-voltaic or solar thermal collector installation is primarily used for the provision of electricity or heating for use within the curtilage of the business premises or light industrial building, and shall not be considered a change of use for the purposes of the Act.</i></p> <p>16. <i>Development under this Class which causes hazardous glint and/or glare shall not be exempted development and any solar photo-voltaic or solar thermal collector panels which are causing hazardous glint and/or glare shall either be removed or be covered until such time as a mitigation plan to address the hazardous glint and/or glare is agreed and implemented to the satisfaction of the Planning Authority.</i></p>
--	---

Article 9 of the Planning and Development Regulations 2001, as amended sets out restrictions on exemptions and states:

9. (1) *Development to which article 6 relates shall not be exempted development for the purposes of the Act—*
- (a) *if the carrying out of such development would—*
- (i) *contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act,*
 - (iia) *endanger public safety by reason of hazardous glint and/or glare for the operation of airports, aerodromes or aircraft,*
 - (viiB) *comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site.*
 - (viii) *consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use.*

3. ASSESSMENT

a. Site Location

The subject site is located on the Rosanna Road within the centre of Tipperary Town and occupied by Tipperary Technology Park.

b. Relevant Planning History

S5/25/147 Declaration sought as to whether 40.5KW roof mounted solar PV system with battery electric storage system (BESS) was development and was or was not exempted development. - **Not Exempt**

00581417 Permission GRANTED to West Tipperary Enterprise Group Ltd.

c. Assessment

A. "Is or is not Development"

Having considered all of the details and documentation on file with regards the question asked, I am satisfied that the proposal would involve "works" and such works would constitute "development" within the meaning of Section 3 of the Planning and Development Act 2000, as amended.

B. "Is or is not Exempted Development"

The proposal is assessed relative to Class 56(e) of Part 1 of Schedule 2 below.

(e) The placing or erection on a roof of a business premises or light industrial building, or within the curtilage of a business premises or light industrial building, or on a roof of any ancillary buildings within the curtilage of a business premises or light industrial building of a solar photo-voltaic and/or solar thermal collector installation.

The proposal for Solar Panels is located on a building which is considered a business premises as defined under Article 5(1) of the above cited Regulations.

Subject to the following conditions and limitations;

1. *Where such development is located within a solar safeguarding zone, the total aperture area of any solar photo-voltaic and/or solar thermal collector panels, taken together with any other such panels previously placed on a roof, shall not exceed 300 square metres.*

The site is outside a solar safeguarding zone.

2. *Where such development is located within a solar safeguarding zone, the planning authority for the area shall be notified in writing no later than 4 weeks after the commencement of such development and such notification shall include details regarding the location and scale of the development.*

Not applicable.

3. *The distance between the plane of the roof and the solar photo-voltaic or solar thermal collector panels shall not exceed:*

a. *for a **business premises**, 1.2 metres in the case of a flat roof or 15cm in any other case.*

The distance between the plane of the roof and the solar photo-voltaic panels is less than 1.2m

b. *for a light industrial building, 2 metres in the case of a flat roof or 50cm in any other case.*

Not applicable.

4. *The solar photo-voltaic or solar thermal collector panels shall be a minimum of 2 metres in the case of a flat roof or 50cm in any other case from the edge of the roof on which it is mounted.*

The submitted drawings show this condition is to be met.

5. *Development shall not be exempted development where the highest part of the solar photo-voltaic or solar thermal collector installation exceeds the highest part of any roof that is not a flat roof (excluding any chimney).*

Not applicable.

6. *Any ancillary equipment associated with solar photo-voltaic or solar thermal collector panels shall not be placed or erected on a wall or any roof that is not a flat roof.*

The equipment will not be stored on the wall. Previously confirmed by agent would be internally stored within the building in plant room area.

7. *The height of any ancillary equipment associated with solar photo-voltaic or solar thermal collector panels on a flat roof shall not exceed 1.6 metres above roof level.*

There is no additional equipment for the panels on the roof shown in excess of 1.6m in height or within 2m of the roof edge.

8. Any ancillary equipment associated with solar photo-voltaic or solar thermal collector panels on a flat roof shall be a minimum of 2 metres from the edge of the roof on which it is mounted.

All equipment is shown be 2m or more from the roof edge.

9. Any free-standing solar photo-voltaic or solar thermal collector installation shall not be placed or erected forward of the front wall of the business premises or light industrial building.

Not applicable as the proposal includes for roof mounted panels.

10. The total aperture area of any free-standing solar photo-voltaic and solar thermal collector panels taken together with any other such existing free-standing panels shall not exceed 75 square metres.

Not applicable as the proposal includes for roof mounted panels.

11. The height of any free-standing solar photo-voltaic or solar thermal collector installation shall not exceed 2.5 metres at its highest point above ground level.

Not applicable as the proposal includes for roof mounted panels.

12. The placing or erection of a solar photo-voltaic or solar thermal collector installation on any wall shall not be exempted development.

Not applicable as the proposal includes for roof mounted panels only.

13. The placing or erection of any free-standing solar photo-voltaic or solar thermal collector installation within an Architectural Conservation Area shall only be exempted development if those works would not materially affect the character of the area.

The lands are located at a remove from the Tipperary Town ACA.

14. No sign, advertisement or object not required for the functioning or safety of the solar photo-voltaic or solar thermal collector installation shall be attached to or exhibited on such installation.

Not applicable as the proposal do not include for any sign, advertisement or object not required for the functioning or safety of the solar photo-voltaic or solar thermal collector installation.

15. Development under this Class shall only be exempted development where the solar photo-voltaic or solar thermal collector installation is primarily used for the provision of electricity or heating for use within the curtilage of the business premises or light industrial building, and shall not be considered a change of use for the purposes of the Act.

All power generated is primarily used for the provision of electricity or heating for use within the curtilage of the business premises. This was queried noting the detail in the information submitted as part of the response and confirmed via telephone by Eoin Barrett (Tipperary Technology Park CLG) on 26th January 2026.

16. Development under this Class which causes hazardous glint and/or glare shall not be exempted development and any solar photo-voltaic or solar thermal collector panels which are causing hazardous glint and/or glare shall either be removed or be covered until such time as a mitigation plan to address the hazardous glint and/or glare is agreed and implemented to the satisfaction of the Planning Authority.

Noting the distance to the public road and owing to the nature of the building and the flat roof design, I am satisfied there would be no hazardous glint and/or glare

C. Restrictions under Article 9

I am satisfied that the proposal would not be restricted by Article 9(1)(iiiia) *endanger public safety by reason of hazardous glint and/or glare for the operation of airports, aerodromes or aircraft,*

I note no restrictions that would apply in the event the solar panels satisfied the available exemption.

D. Requirement for Appropriate Assessment and Environmental Impact Assessment

AA

Screening for AA is not required in respect of the proposal which is not considered to constitute development.

EIA

Screening for EIA is not required in respect of the proposal which is not considered to constitute development.

4. RECOMMENDATION

WHEREAS a question has arisen from Tipperary Technology Park CLG as to whether 40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Rosanna Road, Tipperary Town, Co. Tipperary is development and is or is not exempted development:

AND WHEREAS Tipperary County Council, in considering this referral, had regard particularly to -

- (a) Sections 2, 3 and 4 of the Planning and Development Act, 2000, as amended
- (b) Article 5, 6 and 9 of the Planning and Development Regulations 2001, as amended,
- (c) Class 61 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended
- (d) The plans and details submitted by the applicant on 26th March 2026

AND WHEREAS Tipperary County Council has concluded that –

40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Rosanna Road, Tipperary Town, Co. Tipperary is development and **is exempted development** as same does satisfy the exemption available under Class 56 (e) of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended.

District Planner:

Date: 13/04/2026

Senior Executive Planner:

Date: 15/04/2026

HABITATS DIRECTIVE APPROPRIATE ASSESSMENT (AA) SCREENING REPORT

STEP 1. Description of the project/proposal and local site characteristics:

(a) File Reference No:	S5/26/40
(b) Brief description of the project or plan:	40.5KW roof mounted solar PV system with battery electric storage system (BESS)
(c) Brief description of site characteristics:	Existing business premises in an urban serviced area
(d) Relevant prescribed bodies consulted: e.g. DHLGH (NPWS), EPA, OPW	None
(e) Response to consultation:	None

STEP 2. Identification of relevant Natura 2000 sites using Source-Pathway-Receptor model and compilation of information on Qualifying Interests and conservation objectives.

European Site (code)	List of Qualifying Interest/Special Conservation Interest ¹	Distance from proposed development ² (km)	Connections (Source-Pathway-Receptor)	Considered further in screening Y/N
002137 Lower River Suir SAC	https://www.npws.ie/protected-sites/sac/002137	Within 10km	None	No

STEP 3. Assessment of Likely Significant Effects

(a) Identify all potential direct and indirect impacts that may have an effect on the conservation objectives of a European site, taking into account the size and scale of the project under the following headings:

Impacts:	Possible Significance of Impacts: (duration/magnitude etc.)
Construction phase e.g. <ul style="list-style-type: none"> • Vegetation clearance • Demolition • Surface water runoff from soil excavation/infill/landscaping (including borrow pits) • Dust, noise, vibration • Lighting disturbance • Impact on groundwater/dewatering • Storage of excavated/construction materials • Access to site • Pests 	No potential impacts. No changes to surface water arrangements.
Operational phase e.g. <ul style="list-style-type: none"> • Direct emission to air and water • Surface water runoff containing contaminant or sediment • Lighting disturbance • Noise/vibration • Changes to water/groundwater due to drainage or abstraction • Presence of people, vehicles and activities 	No potential impacts. No changes to surface water arrangements.

- Physical presence of structures (e.g. collision risks)
- Potential for accidents or incidents

In-combination/Other No potential impacts

(b) Describe any likely changes to the European site:

Examples of the type of changes to give consideration to include:

- Reduction or fragmentation of habitat area
- Disturbance to QI species
- Habitat or species fragmentation
- Reduction or fragmentation in species density
- Changes in key indicators of conservation status value (water or air quality etc.)
- Changes to areas of sensitivity or threats to QI
- Interference with the key relationships that define the structure or ecological function of the site

No potential impacts

(c) Are 'mitigation' measures necessary to reach a conclusion that likely significant effects can be ruled out at screening?

Yes No

STEP 4. Screening Determination Statement

The assessment of significance of effects:
Describe how the proposed development (alone or in-combination) is/is not likely to have significant effects on European site(s) in view of its conservation objectives.

The proposed development is not likely to have significant effects.

Conclusion:

	Tick as Appropriate:	Recommendation:
(i) It is clear that there is no likelihood of significant effects on a European site.	<input checked="" type="checkbox"/>	The proposal can be screened out: Appropriate assessment not required.
(ii) It is uncertain whether the proposal will have a significant effect on a European site.	<input type="checkbox"/>	<input type="checkbox"/> Request further information to complete screening <input type="checkbox"/> Request NIS <input type="checkbox"/> Refuse planning permission
(iii) Significant effects are likely.	<input type="checkbox"/>	<input type="checkbox"/> Request NIS <input type="checkbox"/> Refuse planning permission

EIA Pre-Screening
Establishing a development is a 'sub-threshold development'

File Reference:	S5/26/40	
Development Summary:	40.5KW roof mounted solar PV system with battery electric storage system (BESS)	
Was a Screening Determination carried out under Section 176A-C?	<input type="checkbox"/> Yes, no further action required <input checked="" type="checkbox"/> No, Proceed to Part A	
A. Schedule 5 Part 1 - Does the development comprise a project listed in Schedule 5, Part 1, of the Planning and Development Regulations 2001 (as amended)? (Tick as appropriate)		
<input type="checkbox"/> Yes, specify class _____	EIA is mandatory	
	No Screening required	
<input checked="" type="checkbox"/> No	Proceed to Part B	
B. Schedule 5 Part 2 - Does the development comprise a project listed in Schedule 5, Part 2, of the Planning and Development Regulations 2001 (as amended) and does it meet/exceed the thresholds? (Tick as appropriate)		
<input checked="" type="checkbox"/> No, the development is not a project listed in Schedule 5, Part 2	No Screening required	
<input type="checkbox"/> Yes the project is listed in Schedule 5, Part 2 and meets/exceeds the threshold, specify class (including threshold): _____	EIA is mandatory	
	No Screening required	
<input type="checkbox"/> Yes the project is of a type listed but is <i>sub-threshold</i> : _____	Proceed to Part C	
C. If Yes, has Schedule 7A information/screening report been submitted?

TIPPERARY COUNTY COUNCIL

DELEGATED EMPLOYEE'S ORDER

File Ref: **S5/26/40** **Delegated Employee's Order No:** _____

SUBJECT: Section 5 Declaration

I, Brian Beck, Director of Services, Tipperary County Council, by virtue of the powers delegated to me in accordance with the provisions of Section 154 of the Local Government Act 2001, as amended by Schedule 1, Part 1 of the Local Government Reform Act 2014 under Chief Executive's Order No. 44188 dated 3rd October, 2025, hereby order that pursuant to the provisions of the Planning and Development Act 2000, as amended, that an application under Section 5 from Tipperary Technology Park CLG C/O Eoin Barrett, Rosanna Road, Tipperary Town, Co. Tipperary, E34 P658, Re: 40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Rosanna Road, Tipperary Town, Co. Tipperary is development and is exempted development.

AND WHEREAS Tipperary County Council, in considering this referral, had regard particularly to –

- a) Sections 2, 3 and 4 of the Planning and Development Act, 2000, as amended
- gq* b) Article 5, 6 and 9 of the Planning and Development Regulations 2001, as amended,
- c) Class 61 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended
- d) The plans and details submitted by the applicant on 26th March 2026

Tipperary County Council has concluded that 40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Rosanna Road, Tipperary Town, Co. Tipperary is development and **is exempted development** as same does satisfy the exemption available under Class 56 (e) of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended.

Signed:

Date: 16/04/2026

Re: Declaration under Section 5 of the Planning and Development Act 2000, as amended.

Dear sir/madam,

I refer to your application for a Section 5 Declaration received on 26th March 2026 in relation to the following proposed works:

40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Rosanna Road, Tipperary Town, Co. Tipperary

WHEREAS a question has arisen as to whether the proposed development is or is not exempted development:

AND WHEREAS Tipperary County Council, in considering this referral, had regard particularly to –

- a) Sections 2, 3 and 4 of the Planning and Development Act, 2000, as amended
- b) Article 5, 6 and 9 of the Planning and Development Regulations 2001, as amended,
- c) Class 61 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended
- d) The plans and details submitted by the applicant on 26th March 2026

Tipperary County Council has concluded that 40.5KW roof mounted solar PV system with battery electric storage system (BESS) at Rosanna Road, Tipperary Town, Co. Tipperary is development and **is exempted development** as same does satisfy the exemption available under Class 56 (e) of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended.

NOTE: Any person issued with a Declaration of a Planning Authority may refer the Declaration for review to An Coimisiún Pleanála, 64 Marlborough Street, Dublin 1, within four (4) weeks of the date of issue of the Declaration and on payment of the prescribed fee.

Yours sincerely

Geraldine Quinn
